Appropriate $250.00 from the General Request Fund to Jessica Godin and Alex James of Jacobs Grad Council for Jacobs Graduation Celebration to be held on 06/03/09. The Jacobs Graduate Student Council hosts events to bring together graduate students, faculty and staff from the 6 engineering departments to build a sense of community and promote cross-department socialization and collaboration. The Jacobs School graduate students total approximately ~1,200 (i.e. roughly 1/3 of the total UCSD graduate student population). Our organization has held a number of coffee hours and social hours throughout the year using funds from the Dean's office, money from our earlier GRF ($1,500 for social events), and donated department per capita funding from the 6 engineering departments. We have also hosted several large events, including an upcoming Graduation Celebration, an event to honor graduating M.S. /Ph.D. Students from the Jacobs School. The funding will help cover the costs of food (~$1500) for the Jacobs Graduation Celebration. Food is catered by Kava, a well-priced not-for-profit catering company run by the McAlister Institute. The event is open to all graduate students, faculty, and staff. It is aimed at specially recognizing the graduating M.S. /Ph.D. students of the Jacobs School of Engineering. The event will include a few words from the Dean, a group photo of the graduates, and presentation of a parting gift that we have purchased for our graduating students to commemorate their achievements and their time at UCSD.

Affiliated housing residents have demanded a change machine for laundry for many years and the housing administration has balked at the prospect citing security concerns. Now that the graduate students actually have space in housing under direct control and securable, we should have a change machine. $395 for change machine that provides up to 480 quarters ($120). $120 seed money to stock change machine. In the event that the Café is closed, we would first attempt to move the change machine into a secure One Miramar laundry room if housing was amiable after demonstration of the demand for the change machine. If that is impossible, it would revert to GSA and be resold if no further use could be determined.

Appropriate $1100.00 from the Lounge Improvement Fund to Matt Jarvis of the Visual Arts department. This money will be used for a full sized refrigerator ($535), a sofa ($500), and an unspecified number of lamps (combined cost ~$65). This bill might not be considered during the meeting if the representatives of this department do not first agree to back it. This will be a highly teachable moment during the council meeting if so, with the moral being that LIF requests must come from the department's GSA representatives.
